

UNESCO ETHICAL PRINCIPLES

Six core ethical principles for AI in education:

1. DO NO HARM

Prevent negative impacts on learners and teachers

2. PROPORTIONALITY

Benefits must outweigh risks

3. NON-DISCRIMINATION

Avoid bias, ensure equity and inclusion

4. SUSTAINABILITY

Consider long-term impacts on education

5. TRANSPARENCY

Be open about AI use and limitations

6. HUMAN DETERMINATION

Humans make final decisions, not AI

"Safety should be the top priority when deciding whether to use generative AI" - DfE
