

COMMON AI ERRORS

Typical problems in AI-generated teaching resources:

- ✗ Wrong curriculum year/key stage
- ✗ American spelling/curriculum (color, math, grades)
- ✗ Outdated information (old exam specs, superseded NC)
- ✗ Oversimplified or overly complex explanations
- ✗ Missing practical safety considerations (science/DT)
- ✗ Generic examples lacking cultural context
- ✗ Incorrect subject-specific terminology
- ✗ Unrealistic timings for activities
- ✗ No consideration of classroom management

**These aren't failures –
they're why YOU matter.**

**AI provides structure.
You provide expertise.**
