

# SUPERVISION PROTOCOLS

What “supervision” actually means:

## CLASSROOM SETUP:

- ! Screens visible to teacher at all times
- ! No hidden screens or backs to teacher
- ! Teacher circulates continuously
- ! Clear sightlines maintained

## DURING THE LESSON:

- ! Teacher monitors what students type
- ! Checks AI outputs as they generate
- ! Intervenes if inappropriate content appears
- ! Redirects off-task behavior immediately

## EXPLICIT INSTRUCTIONS:

- “You may only use AI for [specific task]”
- Acceptable prompts: [examples]
- Unacceptable examples
- If AI generates something inappropriate, tell me immediately

**Supervision = active, not passive.**
