

# UNESCO ETHICAL PRINCIPLES

Six core ethical principles for AI in education:

## 1. DO NO HARM

Prevent negative impacts on learners and teachers

## 2. PROPORTIONALITY

Benefits must outweigh risks

## 3. NON-DISCRIMINATION

Avoid bias, ensure equity and inclusion

## 4. SUSTAINABILITY

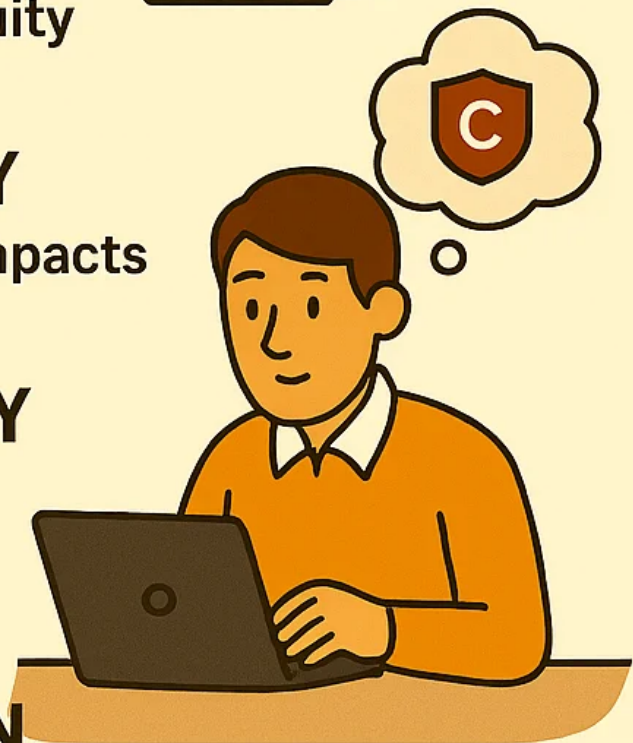

Consider long-term impacts on education

## 5. TRANSPARENCY

Be open about AI use and limitations

## 6. HUMAN DETERMINATION

Humans make final decisions, not AI

*“Safety should be the top priority when deciding whether to use generative AI” - DfE*
